

The **Pneumococcal Disease Info Skill** is now available as an Alexa skill on Amazon.com for use in your patient exam rooms. Below is information to assist you in enabling the skill on your Alexa. Merck Sharp & Dohme Corp., a subsidiary of Merck & Co., Inc., is providing you with this educational resource. This information is intended for health education in the United States. It is not intended for children.

Requirements:

You must have an Amazon Alexa in your patient room. Please read the **Alexa Terms of Use** at <https://www.amazon.com/gp/help/customer/display.html?nodeId=201809740>.

To enable the Pneumococcal Disease Info Skill:

- Go to www.Amazon.com and type **“Pneumococcal Disease Info Alexa”** in the search box
- **Click on Skill name or Icon**

- **Sign into your Amazon Account and click “enable” under “Get this Skill.”**

How do your patients engage with the Pneumococcal Disease Info Skill?

An exam room poster clingz is available for order on MerckVaccines.com.

It is important to place the poster clingz in your exam room, so it is visible to your patients. The poster will prompt them to say:

**Alexa, open
PD Info.**
