🛑 STOP IMMEDIATELY – DO NOT DISCARD ♻️

Controlant SAGA Receiving Instructions	
Please Execute the Following Steps:	
Upon receipt, remove Controlant SAGA from shipping container or pallet	
🔔	Check display for the **alarm** icon
🔴	Push and hold the stop button for 5 seconds
📦	Shipment LED will light up for 3 seconds
🔔	If there is an alarm, **alarm LED will be on for 3 seconds**
🔔🔔	**For alarms –** • **Segregate product** within proper storage temperature and do not use until disposition is provided by Merck • Complete **Notification of Temperature Excursion** form and send email notification to **osinboxusdc@merck.com**
📦	If NO alarm icon and no alarm LED lights – the product has stayed within temperature and can be accepted
Place product under proper storage conditions according to product label	
Return Controlant SAGA for reuse by following return instructions	

Note: If the connection status is showing no signal ☁️✖ and/or the battery is <10% 🔋 -
- Plug USB cable to a USB charger or computer port and charge for >20 minutes
- Unplug and repeat steps above. Check battery and connection status
- If battery is still <10% and/or no signal is detected, email support@controlant.com and provide Controlant SAGA serial number and your location

ALARM   **NO ALARM**
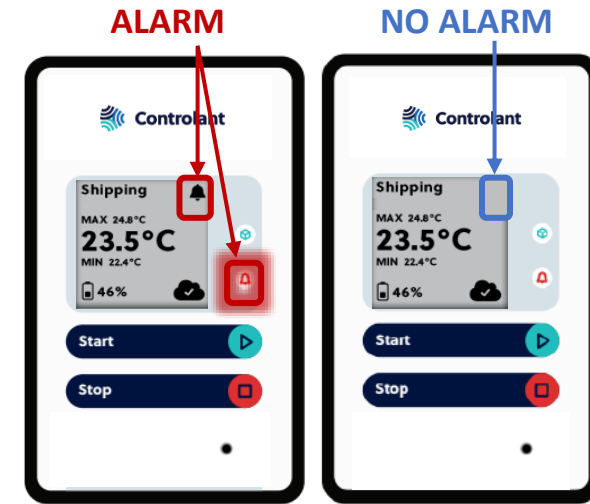

DO NOT DISCARD - RETURN CONTROLANT LOGGERS:

Place Controlant logger in the designated Controlant return box stored onsite, in the Aerosafe reusable shipping container, or in the Smart label envelope.

For return boxes, Controlant will schedule pick-ups and email a return label to place on the return box for pickup.
