Ask Your Child's Doctor About the Vaccines for Children Program Today

Actor Portrayal

Help Protect Your Children

You can help protect your children from certain diseases with vaccines. There are at least 17 diseases that can be prevented by a vaccine.

VFC Program

The Vaccines for Children (VFC) Program offers free vaccines to qualified children if they are age 18 years or younger and one of the following:

- Uninsured
- Underinsured
- Medicaid eligible
- American Indian or Alaska Native

Talk to your child's doctor to see if your child qualifies.

There are over 37,000 providers nationwide

(*Caretakers must choose a provider in their state*)

Many pediatricians and family practice providers are part of the Vaccines for Children Program.

- Private doctor
- Public health clinic
- Private clinic
- Community health clinic
- Hospital
- School-based health center

Vaccination Helps

Protect Children
